

Quality policy (En)

Our company is committed to meeting the provisions of valid laws and regulations and of the standard ISO 9001:2015. We continually develop our operations based on customer feedback and on their needs. We arrange training for our personnel based on our customers' needs and technological requirements.

We deal with internal and external quality deviations appropriately, developing our operations. We establish annual quality objectives and communicate them to our personnel in a clear and comprehensible manner. We are committed to compliance with the quality policy described in our operations manual. We review the quality policy and the related objectives once a year.
